Mr. Conrey,

I would like to take this opportunity to express my sincere gratitude for the service which your company has provided to the United States Secret Service, Los Angeles Field Office. In a day and age when many companies are raising their prices, Advanced Electronics stepped up to the plate. During this time of shrinking federal expenditures, your company went the extra mile in an effort to meet our current budgetary constraints. If it were not for your company's willingness to work within our restrictions, we would not have been able to have 40 new cars outfitted with radios, sirens, and emergency light packages. If more companies would follow the example, set by Advanced Electronics, taxpayers across the country could breathe a sigh of relief.

In addition, the professionalism and dedication of your installation crews, Administrative Manager Vickie Dubois, Installation Manager Tim Weaver, and your Operations Manager Walter Kadyk, is worth boasting about to all. I hope that your staff is well recognized for its outstanding contributions.

We look forward to working with Advanced Electronics in the future.

Sincerely,

Ramon Maytorena
